

This jacket has some unresolved issues such as: the raglan sleeves having a gape around the neckline and being a little far back into armhole. The bodice fit is successful and fit smooth over the corset using 5 panels of curved suppression. Apart from the gaping the sleeves have a good shape with an outside facing seam and inserted zip

Experimenting with pin tucks on sleeve hem

Square sewn zip .vs. normal zip

Leather -  
Red piping -  
Soft crepe-  
lining  
Coutil -
